- Training and go-live support
- Post-live optimization

#### **Integration & Technical Services**

- Custom report writing
- Interface development
- Custom programming
- Data conversion

# Culbert Healthcare Solutions

The following client success stories highlight the breadth and depth of our Allscripts expertise.

## Consulting Snapshot

- Performed **PM vendor selection** for 600+-physician multi-specialty group practice. Included review of PM functionality to support complex billing requirements.
- Performed a **Revenue Cycle Assessment** for a PM client to better leverage application functionality, streamline workflows, and maximize staff productivity to stabilize and then optimize billing operations after go-live.
- Performed a **technical assessment of v11 database design** to ensure the v11 application was built on a solid technical foundation to support the complex workflows of an academic medical center setting.
- Provided a **v11 Note and Orders Specialist** to test new Enterprise EHR releases to ensure that the clinical documentation and orders requirements of an 1,600-physician group practice were supported.
- Served as **Project Manager** for a 200-physician group practice implementing Enterprise PM. **Implemented redesigned and standardized workflows** throughout the organization, and centralized key functions.
- Developed implementation strategy and project plan, for an academic medical center implementing Enterprise EHR (v11), which included a **strategy for mitigating the potential risk of lost physician productivity** throughout the go-live process.
- **Led Enterprise EHR (v11) upgrade** in an academic environment. Performed a gap analysis of current workflows and v11-certified workflows to implement true best practice workflows. Led v11 design/build.
- Provided a **v11 Training Coordinator** to develop the strategy, supporting curriculum, and end-user documentation for a 600-physician multi-specialty practice.
- Developed registration, scheduling, and charge **interfaces between Enterprise EHR and GE Centricity Business**.
- Developed **clinical interfaces** including Lab Orders/Results, Pathology Orders/Results, Transcription, Pharmacy Orders, and ePrescribing.
- Developed **custom reports, including PQRI** information, in requisite formatting.

## Additional CHS Service Offerings
